Situation:

- **People still have strong cultural connections/ identify and enthusiasm/ language/ territory... Some is being lost but much is still there..**
- **What does not work is when people are both poor and “without culture” +**
- **People united by a common threat move forward to a common vision...**
- **Politicians take advantage of the lack of rights**
- **Global Support Initiatives (GSI): catalytic initiatives on going in many African countries**
- **Time to act is now**

Vision

- **ICCAs on steroids**
- **It has to be about territory and not only land**
- **Combining the best of the old and the new**
- **ICCAs can federate many issues—
conservation, IP rights, human rights,
livelihoods...**
- **Have a clear idea of what ICCAs are and
want before they get into the political arena
and get co-opted**

Strategy

- **Crucial demands for legal recognition**
- **ICCA rules need to be supported by the national judicial system**
- **Political advocacy, alliances with political leaders**
- **Communication to decision makers and internationally**
- **Make a case for ICCAs with the African HR Commission**
- **Much more....**
