

A large group of people, mostly men, are gathered indoors for a meeting or conference. They are holding up various signs and banners. In the foreground, a large banner reads "ICCA CONSORTIUM". Several individuals hold signs with messages such as "NO AL RAPAPAMIENTO DE LA TIERRA Y DEL AGUA!", "NO TO POLLUTION OF OUR LANDS AND WATER RESOURCES", "No más Profanación de los sitios sagrados", "WATER IS LIFE!", "WE NEED SUSTAINABLE MANAGEMENT", "TRAVELERS WHO WALK IN DISORDERLY STONES IN TRAILHEADS DON'T KNOW WHERE THEY ARE GOING?", "WE CAN SAVE THE WORLD IF WE STOP CONSUMING?", "EFFECT WATER? THEN, IT'S LIFE!", "LAND LIFE, NO COUNTRY!", "DOES ANYONE CARE ABOUT THE PEOPLE WHO LIVE IN THE MOUNTAINS?", "RENEW RIVERS FOR THE FUTURE", and "HONOR THE TRADITIONS". Some people are also holding up small flags or symbols. The background shows a room with bookshelves filled with books and plants.

The man is standing in front of a presentation board. The board has a title "Terrorism" and a paragraph: "Under attack since the assassination of the Shah of Iran began a new paradigm. His son 'nationalised' the oil industry, and now there is massive land expropriation and public sectors for refineries, petrochemicals, and agricultural subsidies, ecotourism and agricultural subsidies and roads state-run 'protected'". Below the text is a timeline diagram with a red arrow pointing right, labeled "1979" and "2001".

Strategic approach of the ICCA Consortium

➤ What do we want to accomplish in 2019?

Meet our obligations (on-going initiatives – GSI, TCF, Swedbio) and continue to consolidate and develop our international association towards its vision, by adhering to its strategy, and following the advice of the regional meetings...

... continuing to work

at local level
at national level
at regional level
at international level

What is new with respect to prior years?

- **GSI initiative is continuing** for national GEF SGP priority countries, but coming to an **end for the Consortium support**
- The results of the GSI Legal Reviews will hopefully be available
- **TCF support** will come to an **end in mid 2019** – (new donor may step in...)
- We may be able to enhance our work in **marine and coastal environments**, including for the legal side (proposals pending...)
- We still have **CBD Decision XIII.2.sec 7** and likely more from **CBD COP 14** to fully exploit
- We have a **strategy** & our **own policies**, which we need to pursue
- We have a **larger & stronger membership, new allies and partners** and the Consortium is much better known...

CBD decision XIII.2.sec 7 :

...invites Parties and, where appropriate, the IUCN, the ICCA Consortium and other partners in consultation with the Secretariat, to develop voluntary guidance and best practices on identifying and recognising the territories and areas conserved by indigenous peoples and local communities (ICCAs), including in situations of overlap with protected areas, and their potential contribution to the achievement of the Aichi Biodiversity Targets

New work relations, collaborations & partnerships

Supporting local, national & transnational action:

- **CICADA** – regional events, possibly more to come
- **International Land Coalition** – overlap in members, participation in regional meetings, opportunity to collaborate on ‘commitment-based initiatives’
- **Defending the Defenders Coalition** – joined in Jan 2019, informal group of organisations working on “defenders” – good opportunities for collaboration
- **Environmental Law Alliance Worldwide (ELAW), Global Network on Human Rights & Environment, law schools & our “legal eagle” Members** – building teams and networks to provide more targeted in-country legal support, build the next generation of supportive lawyers, etc.

New work relations, collaborations & partnerships

Capacity building & technical support:

- **IUCN Global Protected Areas Programme** – GSI, governance assessments, IUCN policy, etc. (not new but continually developing)
- **WWF-International** – providing advice for ‘inclusive conservation’
- **CBD Secretariat** and others – just entered into a partnership to be launched at COP 14 **towards reaching Aichi Target 11 by 2020**– with caveats:
 - Our members will decide on a country-by-country basis depending on capacities and expected partners
 - Recognition of ICCAs as OECMs (counting for Aichi Target 11) conditional on specific agreement by which the provision of information takes place with FPIC, with respect for the IP or LC governance institution at stake, and with a counterpart of enhanced security for the conserved territory or area, according to what the relevant IPs and LCs will ask for

New work relations, collaborations & partnerships

Influencing global discourse and building the 'evidence base':

- **National Geographic Society** – building relationship for short- and long-term collaboration
- **Mongabay** – series on Indigenous Peoples & Conservation – 3-part story on KAWAWANA
- **Other journalists and media platforms** – National Geographic blog, Guardian, etc.
- **Academics & universities** – joint funding proposals, papers, student researchers, etc.

proposed activities and funding sources

- Supporting **identification and self-strengthening of emblematic ICCAs** in as many countries as possible, including, as appropriate, international registration
- Promoting **a critical mass in “national ICCA networks”** engaged in **advocacy** in as many countries as possible, & supporting exchanges & capacity building at regional level
- Pursuing **conceptual/ technical advances on ICCAs— territories of life** (Policy Briefs, governance vitality, historical regional analyses...)
- Enhancing **communication** – in particular via **ICCA videos**, but not only (we need on-going professional support at global level...)

CBD partnership towards Aichi 11?

GSI Phase II ?

WWF incl. cons.?

GSI

SwedBio
A programme at Stockholm Resilience Centre

Donor/
partner
needed

proposed activities and funding sources

Responding to the **CBD** invitation (decision XIII.2. sec.7) and developing **Guidelines** to identify & recognize ICCAs for Aichi Target 11 (*IUCN Best Practices series?*) for COP XV -- including cases studies on emblematic ICCAs—territories of life & special attention to marine & coastal environments – as part of **on-going int. policy influence**

Donor/
partner
needed

Pursuing our policy on **defending territories of life and their defenders**

Donor/
partner
needed

Pursuing new work on **territories of life and sustainable livelihoods**, adding value and using sustainably the natural resources (autonomy of ICCAs, food sovereignty...)

Donor/
partner
needed

Enhancing **communication about ICCAs— territories of life** in all continents with continent-specific tools, messages and champions/ testimonials

Donor/ partner
needed...
National Geog.?

but also:

- ... please your suggestions here!!!
-
.....
-
.....
-
.....

...Consortium governance, regionalisation, human resources, communications, fundraising...

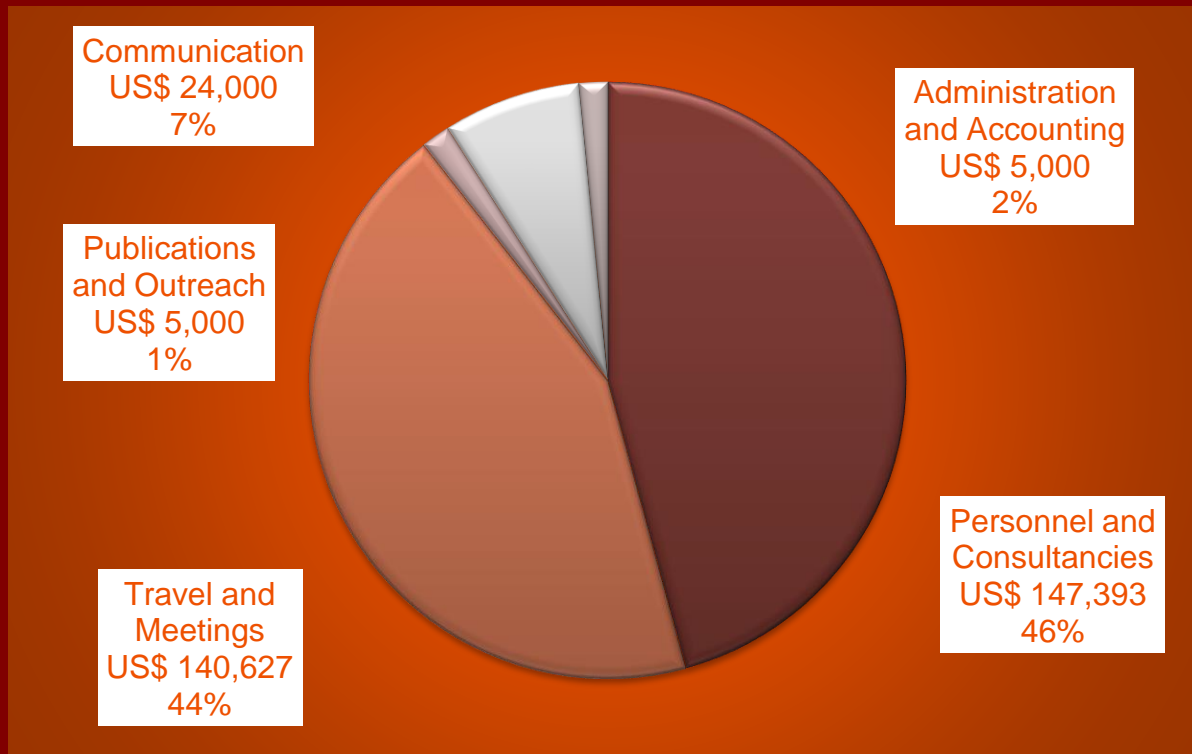

- Support new President and move towards new Secretary of Council & Global Coordinator
- Keep applying the new membership policy – what to do with inactive members? Identify **country Focal Point Members** + promote Member interaction & engagement...
- Move GA to every three years? Have regional assemblies in-between?
- Up-keep the global secretariat while pursuing regional decentralization, systematic plans, fundraising, reporting, regional events...
- Communications: diffuse videos, engage with **local language radios** but also influence **National Geographic productions & TV networks**
- More work on **fundraising** including for specific initiatives (e.g. for the Guidelines) and for core funds

budgetary considerations

expenditures *forecasted*
to Dec. 2018 → US\$ **322,000**

(our Nov 2017 estimate was US\$ 325,000)

(much of travel and meeting costs covered by new grants
as we hoped and expected)

Proposed 2019 budget

we maintain categories & increase
total to→ US\$ **360,000**

...this reflects an increase in line with grants
expected to come to fruition in 2019

We have part of this budget secured for 2019 -- about US\$250,000... including project funds expected to be spent in 2019 and Consortium's savings.

We will continue to actively engage in *fundraising* in 2019, in particular to cover costs for **travel and meetings**, step-up the **work time**, **compensation and resources** for the Consortium Secretariat and pursue **specific initiatives** (not yet included in the current budget).

[illegible]

Many thanks for your attention &...

...let us enjoy our work together, also in memory of Taghi!
